MICHIGAN MEDICAID PROVIDER REVALIDATION AND ENROLLMENT

GENERAL INFORMATION

Revalidation and Enrollment Requirement

DENTECH has been notified by Michigan Medicaid Services that it will require all Medicaid providers to register in the new CHAMPS system. Existing providers must revalidate their information. Revalidation will become available in late February 2008. All existing providers must complete the registration and revalidation process by July 31, 2008. New providers wishing to enroll must also wait until late February 2008 when the Provider Enrollment subsystem is available.

If your office has Internet access, you can visit the CHAMPS website. Go to www.michigan.gov/mdch and click **Providers** then **Information for Medicaid Providers**. Click on **CHAMPS-The NEW Medicaid Processing System**. The website contains plenty of good information with the ability to click on links within the CHAMPS system to assist you with your revalidation.

DENTECH recommends that you visit the Medicaid Provider Training Sessions website to learn about CHAMPS training in your area.

If your office does not currently have Internet access, simply contact Medicaid at the [CHAMPS Provider Enrollment Hotline](tel:1-888-643-2408) at 1-888-643-2408.

Two weeks prior to the CHAMPS go-live date, all enrolled providers will receive a 14-digit application number. This will be mailed to the provider's practice address and billing address. Medicaid CHAMPS information is being mailed to providers with **green** documents. Watch for them!
